HACKATHON 2019

OFFSHORE WIND INNOVATION CAMP

Meet Vattenfall, Equinor and Siemens Gamesa Renewable Energy and help them solve technology challenges in the Offshore Wind industry.

In cooperation with NORWEP (Norwegian Energy Partners) and Innovation Norway, we are delighted to invite you to a Hackathon for the Danish and Norwegian offshore wind industry in Aarhus, Denmark.

This Hackathon is an innovation workshop dedicated to professionals of the offshore wind industry (incl. design, manufacturing, tech experts, service companies, technical and knowledge institutions) to work with some of the major challenges presented by some of the largest companies in the industry.

Place:

TBA in Århus, Denmark

Prices:

Members: DKK 1.000,- (ex vat)

Non-members: DKK 2.000,- (ex vat)

PROGRAM

7 May 2019 (optional) - DAY 1

18.00 – 19.00 Executive Summit

19.00 – 22.00 Networking dinner

8 May 2019 - DAY 2

08.00 – 17.00 The Hackathon

You will get an unique opportunity to network, and discuss technology development challenges with three major players from the offshore wind industry; Vattenfall, Equinor and Siemens Gamesa Renewable Energy in a vibrant and innovative workshop facilitated by experienced professionals. Together with other companies, it is your chance to develop new solutions to the offshore industry. This Hackathon will also set focus on collaboration opportunities and synergies between Danish and Norwegian companies for supporting development of the global offshore wind industry.
