

INVITATION

INTRODUCTION TO THE INTERNATIONAL MBA IN OFFSHORE WIND ENERGY FOR LEADERS IN THE OFFSHORE INDUSTRY

New tailor-made MBA modules with focus on Innovation Collaboration, Finance, People, Innovative Project Management and more, in the offshore wind industry. The modules are developed through the Interreg project Inn2POWER and combine research-based knowledge with industry's current and future challenges.

The target group is leaders from the European offshore industry, seeking increased impact and new knowledge for current and future challenges. In addition to a strong European partner group, the Offshore Wind Energy MBA has strong advisory boards employed by industry partners, which means that companies such as Siemens Gamesa Renewable Energy, MHI Vestas, Vattenfall and Semco Maritime help put together modules of the highest quality.

[Sign up for our information event and hear more about the modules, structure of the MBA and requirements for participation.](#)

Date: June the 18th from 14.00 – 17.00

Venue: Siemens Gamesa Renewable Energy, Borupvej 16, 7330 Brande
